our standards have not been furled.
"But the noblest common heritage of America is not its natural wealth Progressive Convention.

The America is not its natural wealth not are its best traditions found in the observed by Engineer party's national convention here today, delivered by Engineer Robins, of Chicago, as temporary chairman, asserted in vigorous terms—

First. That the Progressive will stand by the announcement made by the national committee last January that the party will join the Republicans if the latter nominator for president a man true to Progressive principles;

Second. That the principle, however, is greater than the tarty, and if need be the Progressive will so on alone;

Third. That proparelness is the paramount issue of the campaign; and Fourth. That Theodore Rossevel is the man of the hour.

"What this country needs now is a man," announced Mr. Robins. In the tree in allows not demonstrate to plain that we stand alone among a man," announced Mr. Robins. In the tree in allows not demonstrate to plain that we stand alone among the man, announced Mr. Robins. In the tree in allows not demonstrate to plain that we stand alone among the man, announced Mr. Robins. In the street nations for the natural resources it might well have done away with that grinding powers; that its natural weather other flags, even under other national indicates. We may vall confess that under other flags, even under other national into course of its commercial greater material welfare for all its people, and with its vast natural resources it might well have done away with that grinding powers; that its natural welfare for all its people, and with its vast natural resources it might be in greater material welfare for all its people, and with two valuable points and courage might have achieved greater material welfare for all its people, and with two varied that its vast natural resources it might well have done away with that grinding powers; that the posterior in the principle is not the people in developing the powers and politics now it is natural welfare for all its people, and with the varied flows. We may value in th
